Cookie Policy

What is a cookie?

A cookie is a small data file stored on your computer, tablet, or smartphone. A cookie is not a program that can contain harmful malware or virus.
How our website uses cookies

Some cookies perform essential functions for our website. Cookies also help us get an overview of your visit to our website so we can continuously optimize and tailor the experience to your needs and interests. Overall, we use cookies as part of our service to present you with content that is as relevant to you as possible.

You can see the specific services that store cookies and why they do it, under the different categories.

How long are cookies stored?

The length of time a cookie is stored on your devices and browsers varies. The lifetime is calculated according to your last visit to the website. When a cookie expires, it is automatically deleted.
How to block or delete cookies

You may at any time block all or just third-party cookies completely by changing the browser settings on your computer, tablet, or smartphone. The location of these settings will depend on the browser you use. However, you should be aware that if you block all or just third-party cookies, there may be functions and services that you will be unable to use on the website (because these depend on cookies).

How can you delete cookies?

It is easy to delete cookies that you have previously accepted. It depends on which browser (Chrome, Firefox, Safari, etc.) and device (smartphone, tablet, PC, Mac) you are using. You can typically find this information under settings – Security and Privacy – but this may vary from one browser to another. Specify which device/browser you are using.

Changing your consent

You can change your consent by deleting cookies from your browser.

Remember: If you use more than one browser, you must delete cookies in all of them.
Do you have any questions?

If you have any comments or questions relating to our information and/or processing of personal data, please feel welcome to contact us. The cookie policy itself is updated once a month by the Cookieyes GDPR.
